MARKET GARDENERS'

PRICE LIST OF

SEEDS

U.S. Department of Agriculture, Washington, D. C.

1906

30th YEAR

No. 5 Union Street

Near Diamond
Market House

AND

514 Liberty Avenue,

PITTSBURG,
PA.

To Our Seed Customers:

Please note that we issue a separate Catalogue of Garden and Farm Implements and Supplies, which will be furnished free on request.

Northern Grown Seed Potatoes

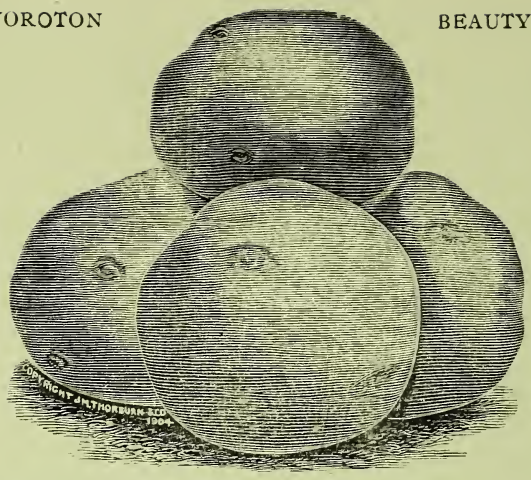
In bbls of 165 lbs. each

Grown Especially For Seed

As in former years we offer our customers strictly northern grown seed potatoes, grown especially for seed purposes by Experienced Growers.

For the first time we offer the—

NOROTON BEAUTY



NOROTON BEAUTY.

A descendant of the Old Peach Blow. Appreciating the desirability of securing a potato with the excellent qualities of the Peach Blow, we purchased a barrel of Noroton Beauties from the originator last spring, and shipped them to our New York State grower to plant for us. A short time ago we received the entire yield from this barrel of seed, consisting of twenty-one barrels of good size tubers.

The Noroton Beauty is the earliest potato grown, being 16 days earlier than Early Rose. It is very productive, handsome in appearance, uniform in size and shape, a good keeper, and like the Old Peach Blow of excellent quality.

EARLY VARIETIES.

Noroton Beauty (described above) peck, $1.00; bushel, $3.75; barrel, $8.00.

	PER BBL.
Early Bovee, new, very early, smooth, excellent quality, good yielder	$ 4.75
Early Six Weeks, extra early, resembling Early Ohio	4.75
Early Vermont, very productive, much like Early Rose	4.50
Early Rose, old, yet always reliable	4.50
Early Sunrise, pink, good yielder of excellent quality	4.50
Early Beauty of Hebron, one of the best for garden, good all the year round	4.50
Early Norther, of Rose class, early and a good table sort	4.50
Early Ohio, extra early, good for market garden, excellent quality	4.75
Early Fortune, light pink, long, smooth, productive, excellent quality	4.50
Early Everett, early, a good yielder of excellent quality	4.50
Irish Cobbler, extra early, heavy yielder, fine quality	4.75
Clark's No. 1, good for either garden or field culture, like Early Rose	4.50

LATE VARIETIES.

Carman No. 3, white, heavy yielder, resembles Rural New Yorker	4.00
Rural New Yorker No. 2, very popular, handsome, heavy yielder	4.00
Maggie Murphy, mid season, large, pink, good for light soil	4.50
Seneca Beauty, good yielder of excellent quality	4.75
State of Maine, large, white, round, fine eating, heavy yielder	4.25
Victor White, medium late, good yielder, good quality	4.25
Alexander's Prolific, late, heavy yielder, good quality, good keeper	4.25
Sir Walter Raleigh, new, large, smooth, white, heavy yielder	4.00
Burbanks, a well known standard variety	4.50
Late Rose, a well known, medium late variety	4.50

Each barrel of the above contains 165 lbs. of full size tubers. Prices are subject to change.

ESTABLISHED 1876.

1906

I. W. SCOTT & CO.'S

Market Gardeners' Seed Price List.

To Our Friends and Customers:—

As we answer the call of another season, and prepare our Seed Price List for 1906, we are met by the fact that we have been thirty years in the Seed Business. We take this opportunity of expressing our gratitude to our host of customers, old and new, who have, by their patronage, contributed to the success of our business during these three decades.

As to the future, it is hardly necessary for us to say that our best efforts will be to merit the continuance of your trade by furnishing the most reliable seeds that we can procure, at reasonable prices.

For 1906 we offer a fresh stock of seeds, procured from the most reliable growers. While we have cut out a few varieties which we consider no longer profitable to the market gardener in this section, we have added some new but thoroughly tested varieties which we can highly recommend, and which we confidently believe will attain to the front rank when their merits become known.

FARM AND GARDEN IMPLEMENTS AND SUPPLIES

We wish to call attention to the change we have made in our catalogue this year Heretofore we have issued our Seed Price-List and Implement Catalogue under one cover. This year we issue a separate catalogue of fifty-six pages, illustrating and describing our line of Plows, Harrows, Cultivators, Seeding Machines, Insecticides, Sprayers, Fencing, etc, which will be furnished free on request.

OUR MAIL ORDER TRADE

Our mail order trade is rapidly growing each year, and customers at a distance can depend on getting the same careful attention as the purchaser who comes to our store.

Soliciting your orders, which will always have our prompt personal attention, we are,

Very respectfully yours,

I. W. SCOTT & CO.

VEGETABLE SEEDS.

Seeds by Mail—Postage is 8 cents per pound. For Peas, Beans and Corn, add 15 cents per quart to prices quoted.

Remittances can be made by postal money order, bank draft, registered letter, express company's money order, or by express. Amounts less than two dollars may be remitted in postage stamps.

Shipping Instructions.—When goods are to be shipped by freight or express, give plain shipping instructions. Otherwise we use our own judgment in this matter.

Guarantee.—Seeds of the best quality are apt to fail, through improper treatment, by sowing the seed too deep or too shallow, in too wet or too dry soil. They differ greatly as to temperature required for germination. Some will germinate rapidly at a certain temperature, while others, if sown under the same conditions, are apt to decay. The young plants are liable to various accidents; cold or dry air may check their growth or destroy them. Insects above and below the ground may attack them, and a great many other contingencies may arise to prevent the best seeds fron giving satisfaction, and for all these reasons it is impractical to **Guarantee Seeds**. We give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter, of any seeds we send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Terms.—Parties unknown to us will please send money as above stated, or satisfactory reference with order.

Prices subject to change without notice.

Seeds in papers, 5 cents each, except Cauliflower; for prices on this, see under head of Cauliflower.

Half bushels will be charged at bushel rates; half pecks at peck rates; half pounds at pound rates. Less than half pecks at quart rates; less than quarter pounds at ounce rates.

ASPARAGUS.

Eight ounces of Seed to 100 yards of row. 15 lbs. to the acre.

	oz.	¼ lb.	lb.

Black Valentine	15	30	1 90	7 00
White Navy	Prices named upon application.			

Giant Stringless Green Pod Bean.

Giant Stringless Green Pod is a round podded bush bean of very fine quality. The pod is full of meat and absolutely stringless even when large enough to shell. The quality is unsurpassed.

Round Pod Kidney Wax Bean.

Round Pod Kidney Wax is one of the few Wax Beans combining productiveness, hardiness, beautiful appearance and superfine quality. It is a handsome yellow brittle pod and perfectly stringless at all stages of growth. Not liable to rust.

BEANS.

Dwarf Wax Podded.

Three quarts of Seed to 100 yards of row. 1½ bushels to the acre

Keeney's Rustless Golden Wax Bean.

Keeney's Rustless Golden Wax is the most prolific flat wax bean known to the trade, and the only one that does not rust in unfavorable seasons. The pod is a rich yellow color, is meaty, of fine quality and perfectly stringless.

It sends out a tendril when in blossom but this soon disappears and it is practically a bush bean thereafter. One of the best sorts in cultivation.

	Pint	Quart	Peck	Bushel
Golden Wax Improved	$0 20	$0 30	$1 90	$7 00
Golden Eye Wax	15	25	1 75	6 00

Thomas Laxton Pea.

The Thomas Laxton Pea is a large podded early pea of unsurpassed quality. It combines more desirable qualities than any other sort in cultivation,—Earliness, productiveness, extremely fine quality, with large, handsome pods crammed full of delicious peas.

Gradus or Prosperity Pea.

The Gradus or Prosperity Pea is a large podded pea of the Telephone type but very early. The quality is superfine. It is worth dollars where most other kinds are worth dimes.

PEAS.

Three quarts of Seed for 100 yards of row.
Dwarf Varieties, 2 bu per acre, Tall Varieties, 1 to 1½ bu. per acre.
Broadcast, three bushels per acre.

FLOWER SEEDS.

SWEET FLOWERING PEAS.

Every One Who Cultivates Flowers Should Plant Sweet Peas.

The Sweet Pea is one of the most popular flowers in cultivation and numbers among its enthusiastic admirers thousands of skilful cultivators. It is a free flowering climber, and considered one of the best annuals that enrich the flower garden.

Early in spring make a trench about six inches deep in rich, mellow soil, so arranged that no water can stand in it, and plant the seed in the bottom, taking care not to cover it more than two inches When the plants are about five inches high, fill up the trench and furnish some support for the vines to run upon. The flowers should be picked before they form pods, or the plants will soon stop flowering.

Ask for our 56 page catalogue of FARM AND GARDEN IMPLEMENTS AND SUPPLIES illustrating and describing our line of Plows, Harrows, Cultivators, Seeding Machines, Insecticides, Sprayers, Fencing, etc.

NITRO-CULTURE

To our customers who are skeptical regarding the merits of NITRO-CULTURE we wish to say that we have made a careful investigation of results obtained from users of NITRO-CULTURE last year, and feel justified in saying that under proper conditions it is capable of producing remarkable returns.

The following letter was received from a large grower of Lima Beans, and a true photograph taken by him is herewith reproduced.

Port Norris, N. J. September 15. 1905

Gentlemen:—

Yours of August 21, 1905, received sometime ago, beg to be excused for the delay in answering. I have used Nitro Culture on Lima Beans, and will say the results are marvelous. I can recommend it to all growers of beans particularly. I had 9000 hills, and not 10 missing hills in the lot. I attribute it to the use of Nitro-Culture. You can recommend it to every farmer conscientiously.

(Signed) J. W. BRADWAY.

We know failures have been reported, and in most cases a satisfactory reason for the failure can be given. In this section, acid or sour soil is responsible for a large per cent. of the failures, and this condition can readily be overcome by free use of lime.

There is no question regarding the usefulness of Nitrogen-gathering Bacteria as a means of economically supplying nitrogen collected from the air. The question raised is in regard to the best method of distributing the germs. NITRO-CULTURE is prepared under the personal supervision of Dr. George T. Moore, formerly with the U. S. Department of Agriculture, and discoverer of the improved process.

As a special precaution the new Cultures are tested in pure sand before being sent out, so that no risk is taken by the purchaser. Photographs of the results of greenhouse tests of this year's Cultures will be furnished upon application.

I. W. SCOTT & CO., No. 5 Union Street, No. 514 Liberty Avenue.
